Workshops to Push Forward Your Trolleybus System

Ladies and Gentlemen,

High prices for fuels, increasing ecological damage and chronic finance problems of the public hand speak for the modern Trolleybus system. Emission free and efficient as they are modern Trolleybus systems can solve the traffic problems of many towns more quickly and more cost-effectively than other Public Transport means.

The Trolleybus Working Group (TWG) of the UITP Bus Committee as well as TrolleyMotion want to convince authorities and public transport executive companies to preserve and to modernize their existing Trolleybus systems as well as to extend them or to set up new modern Trolleybus systems.

TrolleyMotion is an association of experts, representatives of the Trolleybus system industry (vehicles, overhead lines, power supply, passenger information systems etc.), successful Trolleybus companies, consultants and organizations promoting public transport.

The services of both institutions are various and cover information materials, position papers, the organization of workshops and meetings, specific consultations, dedicated lobbying work as well as presentations of successful Trolleybus systems. TWG and TrolleyMotion work together to promote the Trolleybus system as a smart and modern transport mode. For more details please visit www.uitp.com and www.trolleyemotion.com.

Workshops will be held in a small frame and have the objective of having answered actual questions which can influence the future of your Trolleybus system by experts and other competent persons.

Facts and arguments which can help you to preserve or enlarge your existing system and to justify new systems can be worked out at these events at the same time.

The first of these workshops will be held in the Trolleybus city of Salzburg (Austria) on the occasion of the 4th meeting of the UITP TWG on April 20th, 2006. You are cordially invited to participate. The event language will be English. Depending on the participant circle even further languages are conceivable.

To gear this event better to your main topic emphases we would be glad if you will answer to a couple of questions. Please **send us back the questionnaire until 31st January 2006 at latest**. You will then receive the final program with the booking documents very quickly.

Best regards

UITP
